

This container is limited to 4.0 volumes maximum carbonation with no pasteurization. It is the responsibility of the glass container purchaser to consult with its closure supplier to determine the appropriate pressure limits for the combination of the container, its finish and the closure chosen, when the container will be subjected to pressure or used for contents under pressure.

Process of manufacture is Blow & Blow

**Saxco International LLC**  
 Property of Saxco International, LLC and its affiliates/subsidiaries.
